

Welcome to Kindergarten! CMA Preview Week

We will be having our Annual Preview Week for all prospective students coming into our Kindergarten Development (KD) and Kindergarten (K) Program here at CMA. This special week is so important for all who are enrolling or thinking of enrolling in these programs for the upcoming school year.

Students coming to school will need to be able to do such things as dress themselves, go to the bathroom without assistance, follow multiple directions and be able to sit in a classroom setting and do class work for periods of time. Preview Week will help our teachers see what the students may need to work on before school begins to be better prepared.

Preview week will be Monday through Thursday, April 23 -26 from 8:15am to 10:45am each day. This is the time of day when our teachers do core class work and will help them evaluate the student's development for school. This will also allow them to get better acquainted with the teachers and the classroom before the next school year.

At the end of the week, we will provide you with a folder with the work they completed and a checklist with comments on how they performed overall, along with any recommendations from the teachers to help them be as successful as possible in their first year of school!

Please contact the school office at 501-624-1952 to register or with any questions. We look forward to having them at CMA for Preview Week!
