

# Christian Ministries Academy School Communication

Communication is really a priority for all of us and is essential for staying up-to-date with school functions and announcements. With so much happening on a daily basis here at CMA, we want to use the best and easiest forms of communication with our parents and students.

We currently utilize the Remind App as our source of communication for all school activities, events, reminders, and closings or delays when weather conditions arise. (When the weather is questionable, Remind will be the first and fastest way to find out about these closings or delays. Our teachers also use Remind for their classroom communications and reminders with parents and students.

**PLEASE CHECK YOUR NOTIFICATIONS** (you can choose to get reminders through the app, text message or email) so that you know all that is happening. It is our goal to keep you updated as best we can. You can find most other documents and information on our website at [www.cmahotsprings.com](http://www.cmahotsprings.com)

There are several ways to sign up with Remind. You can choose one of the following:

- When we add you to our Remind group, you will receive an email or text, just follow the instructions.
- Go to [remind.com](http://remind.com) or download the app. Make an account as a parent. Choose how you want to receive notifications - through the app, by text message, or by email (or a combination).
- By Text. In the message box type: @cmaparents  
Text this to: 81010

Students in 7th-12th grade can sign up in their individual classes with teachers. All students 13 and older are able to participate - students under 13 will be grouped with parent accounts.

If you need help joining our parents and students group or classes in Remind, please contact the CMA Office.
